Product Description

The Netis ST3105C is a compact 5-port 10/100Mbps RJ45 switch designed for reliable home and office networking. Featuring store-and-forward transmission, it ensures stable data delivery and minimizes packet loss. With a 2K MAC address table, this switch efficiently manages network traffic for smooth connectivity. Ideal for small networks, desktop setups, and plug-and-play installation, the ST3105C delivers fast, stable, and energy-efficient network performance.
